# (III) Changes in principal accounting data and financial indicators and the reasons

✓ Applicable  $\Box$  Not applicable

- *Note:* the current period in the analysis below refers to the period from January to March 2022.
- 1. Tax payable decreased by 49.65%, mainly due to the payment of various taxes and fees by the Company during the current period.
- 2. Non-current liabilities due within one year increased by 92.40%, mainly due to the reclassification of long-term borrowings to this item during the current period.
- 3. Long-term borrowings decreased by 51.32%, mainly due to the reclassification of long-term borrowings to non-current liabilities due within one year during the current period.
- 4. Other non-current liabilities increased by 186.53%, mainly due to the reclassification of long-term construction payable to the item.
- 5. Finance costs decreased by 68.50% as compared with the same period of last year, mainly due to the decrease in exchange losses as a result of exchange rate fluctuations.
- 6. Gain or loss on fair value changes increased by 1,390.58% as compared with the same period of last year, mainly due to fluctuations in the fair value of financial assets held for trading.
- 7. Net profit attributable to owners of the parent company decreased by 83.61% as compared with the same period of last year, mainly due to the decrease in gross profit as a result of the decrease in the Company's operating income for the current period.
- 8. Net cash flow from operating activities was a net outflow of RMB9,018 million, representing a decrease of RMB3,909 million in net outflow as compared with the same period of last year, mainly due to the increase in cash received from the sale of goods and provision of services during the reporting period as compared with the same period of last year.

- 9. Net cash flow from investing activities was a net outflow of RMB5,639 million, representing a decrease of RMB4,111 million in net outflow as compared with the same period of last year, mainly due to the decrease in cash paid for investment during the reporting period as compared with the same period of last year.
- 10. Net cash flow from financing activities was a net inflow of RMB3,825 million, representing a decrease of RMB14,938 million in net inflow as compared with the same period of last year, mainly due to the decrease in cash received from borrowings and debt issuance during the reporting period as compared with the same period of last year.

Operating income decreased by 26.25% as compared to the corresponding period of the previous year, mainly due to the decrease in the delivery of railway equipment business. The railway equipment business, urban rail and urban infrastructure business, new industry business and modern services business accounted for 17.45%, 36.24%, 41.16% and 5.15% of the operating income, respectively.
