(III) Changes in principal accounting data and financial indicators and the reasons

√ Applicable ☐ Not applicable

Note: the current period in the analysis below refers to the period from January to September 2022.

1. Financing receivable decreased by approximately 31.10%, mainly due to the decrease in bills receivable measured at fair value received during the current period.
2. Prepayments increased by approximately 32.48%, mainly due to the increase in prepayments made by the Company in accordance with the terms of the contracts during the current period.
3. Inventories increased by approximately 36.86%, mainly due to the increase in production spare parts during the current period.
4. Non-current assets due within one year decreased by approximately 60.38%, mainly due to the decrease in loans and advances due within one year by CRRC Finance Co., Ltd. (“**Finance Company**”).
5. Debt investments decreased by approximately 69.92%, mainly due to the decrease in interbank depository receipts invested by Finance Company.
6. Development expenditures increased by approximately 43.06%, mainly due to the increase in the estimated capital expenditure on research and development during the current period.
7. Borrowings from central bank decreased by approximately 69.58%, mainly due to the decrease in borrowings obtained from central bank by Finance Company.
8. Deposits from customers and interbanks decreased by approximately 34.66%, mainly due to the decrease in loans placed with Finance Company.
9. Non-current liabilities due within one year increased by approximately 40.10%, mainly due to the reclassification of long-term loans to this account during the current period.
10. Other current liabilities increased by approximately 421.66%, mainly due to the issuance of ultra-short-term financing bonds during the current period.
11. Long-term borrowings decreased by approximately 50.08%, mainly due to the reclassification of long-term borrowings during the current period to non-current liabilities due within one year.

12. Bonds payable decreased by 100%, mainly due to the reclassification of bonds during the current period to non-current liabilities due within one year.
13. Finance costs decreased by approximately 162.63% as compared to the corresponding period of the previous year, mainly due to the increase in exchange gains as a result of exchange rate fluctuations.
14. Gains from investments decreased by approximately 82.83% as compared to the corresponding period of the previous year, mainly due to the investment losses incurred by disposal of subsidiaries.
15. Profit or loss from changes in fair value increased by approximately 290.89% as compared to the corresponding period of the previous year, mainly due to the fluctuation in fair value of financial assets held for trading.
16. Non-operating income decreased by approximately 51.51% as compared with the corresponding period of the previous year, mainly due to the decrease in compensation for relocation in the current period.
17. Non-operating expenses decreased by approximately 73.09% as compared with the corresponding period of the previous year, mainly due to the decrease in losses incurred for relocation in the current period.
18. Net cash flow from operating activities was a net inflow of RMB9.860 billion, as compared to a net outflow of RMB1.419 billion for the corresponding period of the previous year. This was mainly due to the decrease in cash paid for the purchase of goods and services in the current period as compared to the corresponding period of the previous year.
19. Net cash flow from investing activities was a net outflow of RMB6.014 billion, representing a decrease of RMB10.604 billion as compared to the corresponding period of the previous year. This was mainly due to the decrease in cash paid for investments in the current period as compared to the corresponding period of the previous year.
20. Net cash flow from financing activities was a net outflow of RMB246 million, as compared to a net inflow of RMB19.746 billion for the corresponding period of the previous year. This was mainly due to the decrease in cash received from loans and debt issuance during the current period as compared to the corresponding period of the previous year.

Operating income decreased by 6.16% as compared to the corresponding period of the previous year, mainly due to the decrease in the delivery of railway equipment business. The railway equipment business, urban rail transit vehicle and urban infrastructure business, new industry business and modern services business accounted for 34.45%, 25.51%, 35.94% and 4.10% of the operating income, respectively.

Unit: RMB'000 Currency: RMB

Segment business	Operating income			
	January – September 2022	For the same period of last year	Increase/ decrease	Increase/ decrease percentage
Railway equipment	46,704,557	52,588,298	-5,883,741	-11.19%
Urban rail transit vehicle and urban infrastructure	34,585,866	37,401,033	-2,815,167	-7.53%
